

DOCUMENT INDEXING & DATA ENTRY

How Does Data Effect Your Organization?

Your data is only valuable if it is unlocked from information silos and put to work in your organization to drive decisions, efficiency, marketing and sales. Information about customers is likely the single most important asset you own today.

Coleman Data Solutions works with you to move your mission-critical data from silos, whether it is in paper or electronic format, and puts them into tools and databases that give you the power to efficiently leverage your data to achieve your goals.

What to Expect

- 99.99% accuracy on verified data
- Double-key verification
- Fast and Affordable
- Accurate data entered in less time
- Industry-proven workflows
- More than 22 years experience
- Support for most formats
- Load data into any system
- Meet compliance regulations

Why Coleman?

The average Coleman Data Solutions indexing employee is highly skilled, meets high quality standards and has been with the company for seven years.

Coleman also invests in the best equipment, software and training to offer high quality data entry services that are quick, efficient and accurate.

Data Solutions is a social enterprise of Coleman Professional Services, a nationally recognized provider of award-winning behavioral health and rehabilitation programs in Northern Ohio.
